

Spring Newsletter

2024

At last! The evenings are starting to get longer and the mornings are brighter, we are well on the way to Spring! As caravaners often say, "we hope you wintered well" and that you are looking forward to another year at Comrie Holiday Park. We certainly are!

We are looking forward to welcoming everyone back again and have been busy preparing the park for our season ahead. The biggest change being our new Starlink Wifi but smaller changes, such as repairs and fencing, have been happening quietly behind the scenes.

To welcome and get to know new faces on the park, we asked recently about an event to allow everyone to get to know each other. The overwhelming choice was option 2, BBQ in the park itself. Further details to follow on this, looking to host around May or June but this will be weather dependent.

We will ensure we give enough notice to include everyone wishing to attend. Hopefully this will be the start of something annual!

If you would like to help with this event, and haven't already let Ewan know, please drop him an email, text or pop in to the office.

Holiday Home Etiquette

Here are a few reminders of how to be mindful of others on Comrie Holiday Park. We hope these will be useful to new owners and to any visitors to the park.

- ◇ Please stick to our 5mph speed limit to ensure all children, pets and the elderly are safe. We also have a one way system in place
- ◇ Please do not go between holiday homes for any reason and avoid walking close to the front or rear decking. **Please allow others to enjoy their privacy**
- ◇ Anti social behaviour, of any kind, is not tolerated and will result in swift action from the Resident Manager. You are always responsible for the behaviour of your friends and family using your home in your absence
- ◇ Ball games should only be played on the field by the old showground carpark, to allow all on the park to enjoy the peace and tranquillity we offer
- ◇ Only one car should be parked at your holiday home. Larger vehicles or additional cars, should be parked in the closest parking area. From now, please refrain for parking additional vehicles on the road beside your holiday home

Maintenance

We are very proud of our grounds and the work of both Ross and Fraser in keeping our grounds to a high standard.

We want the park to be an enjoyable place for everyone, so please make sure your holiday home, decking and pitch area are in good repair, painted and washed regularly.

It is unfair to look upon a messy pitch or unkempt holiday home.

Engineers

If you are having any work carried out on your holiday home, please use only LPG Qualified and Registered Gas Engineers for any work. If new to the park, please ask the engineer to pop into the office to sign in and share credentials.

We recommend:

Greg Stirton 07979 528390

Stuart Graham 07835 054363

Scott Stewart 07766 001515

Lee Buchanan (new) 07484 344815

Congratulations to Mr and Mrs Wilson, who have upgraded to a new Willerby Brookwood sited on Willow 5.

We welcome Mr and Mrs Easdon, to Willow 6, after purchasing their first holiday home with us!

We also welcome Mr and Mrs Graham, moving to us from Twenty Shilling Wood and taking ownership of Laurel 16.

"A CROSS-CULTURAL COMEDY THAT EXPLORES THE FREEDOM OF BEING LOST AND THE EXHILARATION OF FINDING ONESELF."
 MARK OLSEN, LOS ANGELES TIMES

FREMONT
 A FILM BY BABAK JALALI

1hr 31m 12A 2023
 Beautiful and troubled 20-something Donya, an Afghan translator who used to work with the U.S. government, has trouble sleeping. She lives by herself in Fremont, California, in a building with other Afghan immigrants and often dines alone at a local restaurant watching soap operas. Her routine changes when she's promoted to writing the fortunes at her job at a fortune cookie factory in the city. As her fortunes are read by strangers throughout the Bay, Donya's smoldering longing drives her to send a message out to the world, unsure where it will lead.

The fourth film from Iranian-American director Babak Jalali is an utter delight: a wry, Jarmuschian musing on the human connections and possibilities that spark in the most unexpected places.
